COVID travel guide for Mongolia

ENTRY REQUIREMENTS:

FOR CUSTOMERS TRAVELLING FROM THE UK	
There are no specific entry requirements for Mongolia in relation to COVID. All travellers will therefore need to fulfil Exodus' COVID-Clear policy. Full details on this can be found here. **Prior to your trip, you will need to either:**	
• Be fully vaccinated against COVID-19 **OR** • Receive a negative COVID test result before travelling	The total number of doses must have been given, as required by the vaccine manufacturer (in most cases this is two doses), with the last dose having been administered no less than two weeks prior to travel. Please send a PDF copy of your NHS COVID Pass for Travel to CustomerOps@exodus.co.uk, no less than 14 days before departure. For guidance on how to obtain this, please go here. If you are not fully vaccinated, please take a PCR test no more than 72 hours before departure. Please advise us of this and show the negative test result to your tour leader at the beginning of the trip. Information on COVID testing and private providers can be found here.
Before arrival you will need to:	
• Obtain a K2 tourist visa	This can be completed online here. Visas are normally issued within 72 hours of application. You will be required to carry a digital or printed version of the visa.
Upon arrival you will:	
• Show your visa to the Mongolian authorities	Please ensure you have the correct documents with you before you depart.

BEFORE YOU LEAVE CHECKLIST:
