COVID travel guide for Jordan

ENTRY REQUIREMENTS:

FOR CUSTOMERS TRAVELLING FROM THE UK	
There are no specific entry requirements for Jordan in relation to COVID. All travellers will therefore need to fulfil Exodus' COVID-Clear policy. Full details on this can be found here. **Prior to your trip, you will need to either:**	
• Be fully vaccinated against COVID **OR** • Receive a negative COVID test result before travelling	The total number of doses must have been given, as required by the vaccine manufacturer (in most cases this is two doses), with the last dose having been administered no less than two weeks prior to travel. Please obtain a copy of your NHS COVID Pass for Travel and have this readily available during your trip. For guidance on how to obtain this, please go here. If you are not fully vaccinated, please take a COVID test no more than 72 hours before departure. This can be either a PCR or lateral flow test. This must be a private test; information on COVID testing and private providers can be found here. Checks may be made by our UK based team prior to travel, or during your trip by your tour leader. If you are unable to provide proof when requested on the trip, you will need to take a COVID test locally, at your own expense.
Before arrival you will need to:	
• Register with the Jordanian authorities using the 'visitjordan' platform	This is done online here.
Upon arrival you will need to:	
• Show that you have registered with the Jordanian authorities	Upon completing the online form, please save the resultant QR code and take this with you when you travel to Jordan. We recommend having this in both printed and digital format.

BEFORE YOU LEAVE CHECKLIST:
